# ENHANCED PERFORMANCE, SPRINGFIELD ARMORY® RELEASES THE XD(M)® 5.25 COMPETITION SERIES

After launching the best, out of the box, competition handgun in 9mm just a few short months ago, Springfield Armory® is announcing that the XD(M)® Competition Series pistol is now available in .45ACP. With the fantastic acceptance of the 9mm, we just had to get the major caliber version out ASAP.

The XD(M)® 5.25 Competition Series pistols feature refinements in accuracy and shoot-ability which aid in speed and precision shooting applications.

The longer slide and barrel offer a longer sighting radius. This makes it is easier to see alignment errors and then correct those errors. This leads to enhanced human accuracy. The part you can control. It allows you to aim better. It is also easier to shoot fast when you have a longer sighting plane. It comes down to a thing called "point-ability".

The new, adjustable precision target rear, and fiber optic insert serrated front sights are better than most options that you can have installed from a custom shop. Springfield's professional shooter, multi-time World Champion, Rob Leatham says, "This is the best rear sight he has seen on this category of gun. Makes anything before it obsolete."

The lightening cut reduces slide and reciprocating mass. If the parts you are trying to move are too heavy, they will not work at the right speed. Competition shooters are always looking for an edge, and lightening slides, when permitted by the rules of competition, allow a wider variety of ammunition to function properly. A longer slide normally means more weight, but the engineers on this project were able to lighten moving parts to weigh the same as our shorter 4.5 inch barrel length XD(M)®'s. Plus they look really cool!

Lots of shooters look for increased accuracy and end up hunting for custom match grade barrels with improved fit. This "enhanced barrel fit" gives you never before seen accuracy from a factory stock polymer pistol. Rob Leatham believes this model is accurate enough, out of the box, to win at events like the Bianchi Cup, The Steel Challenge and the USPSA and IDPA Nationals, and he plans on testing this belief out in upcoming competitions.

Other things like barrel locking points that are further apart may help with the accuracy also, but it is really the sum of all of the changes that make these pistols so special.

As with all XD(M)®'s, you get very high magazine capacity. For those of you that like your guns to hold lots of rounds.

The XD(M)® 5.25 Competition Series .45 gives the big bore enthusiast the best shooting, best handling polymer pistol platform available, out of the box. In addition to all the features of it's little brother, the 9mm, the .45 brings you increased Accuracy, Speed and Power.

Sometimes .45's get too big and unwieldy when using double stack magazines! Not this time! You will not believe how compact the XD(M)® .45 grip is, and it is carrying 13 rounds of what is arguably the best defensive pistol cartridge ever devised.

Remember, it's not just the competition shooter who gets to benefit from all of these features, it will raise the standard for performance in the polymer pistol market, no matter what caliber you choose.

**ADJUSTABLE REAR  
TARGET SIGHT**

**MATCH GRADE  
SELECT FIT BARREL**

**LIGHTENING CUT**

**FIBER OPTIC FRONT SIGHT**

## CAN A GUN ACTUALLY MAKE YOU SHOOT BETTER?

NO, BUT THE RIGHT GUN CAN ALLOW YOU TO SHOOT BETTER.  
THE XD® AND XD(M)® ARE PERFECT EXAMPLES. THEY ARE DESIGNED TO WORK WITH YOUR BODY,  
NOT AGAINST IT — ALLOWING YOU TO REACH YOUR FULL POTENTIAL AS A SHOOTER.

PICK IT UP. POINT IT.  
RAISE AN XD® OR XD(M)® NATURALLY TO EYE LEVEL AND YOU WILL BE LOOKING RIGHT DOWN THE  
SIGHTS. THAT'S WHAT WE CALL  
**POINT & SHOOT ERGONOMICS™.**

TRY THIS WITH SOME OTHER POPULAR PISTOLS AND YOU MAY BE LOOKING AT THE TOP OF  
THE SLIDE — MORE LIKE "POINT AND ADJUST." WITH A PISTOL LIKE THAT, YOU WILL ALWAYS NEED TO  
BEND YOUR WRIST FORWARD TO COMPENSATE FOR THE UNNATURAL GRIP ANGLE.

THE NATURAL POINTABILITY OF THE XD® AND XD(M)®, COMBINED WITH THE COMPACT SIZE AND SHAPE  
OF THE POLYMER GRIP, MAKES THEM FEEL MORE LIKE A NATURAL EXTENSION OF YOUR BODY THAN AN  
OBJECT IN YOUR HAND. THAT'S WHY MOST PEOPLE FIND THEY SHOOT BETTER WITH THE  
XD® OR XD(M)®.

DOES THE XD® OR XD(M)® MAKE YOU SHOOT BETTER?  
NO.  
BUT IT ALLOWS YOU TO SHOOT YOUR BEST.

## POINT & SHOOT ERGONOMICS™

### XD(M)® 5.25" COMPETITION SERIES

CALIBER:	9x19mm	.45ACP
* CAPACITY:	19+1RDS	13+1RDS
HEIGHT:	5.75"	5.75"
WEIGHT:	29oz	32oz
BARREL:	5.25" MATCH GRADE SELECT FIT STEEL, MELONITE®, FULLY SUPPORTED RAMP	
LENGTH:	8.3"	8.3"
SIGHTS:	RED FIBER OPTIC FRONT (REPLACEMENT RED & GREEN FILAMENT INCLUDED) AND FULLY ADJUSTABLE TARGET REAR	
SIGHT RADIUS:	7.25"	7.25"
SLIDE:	FORGED STEEL WITH LIGHTENING CUT	
FRAME:	BLACK POLYMER	
COLOR:	○ ●	
XD(M) GEAR™:	INCLUDED IN (M) MULTI-USE CARRYING CASE: THREE MEGAZINES™ (FOR LIMITED TIME), BELT HOLSTER, MAG LOADER, DOUBLE MAG POUCH, THREE INTERCHANGEABLE BACKSTRAPS AND REPLACEMENT RED & GREEN FILAMENT.	
* MAGAZINES:	3 STAINLESS STEEL (FOR A LIMITED TIME)	
* HIGH-CAPACITY MAGAZINES MAY NOT BE AVAILABLE IN SOME STATES.		

ARRANGEMENT MAY VARY FROM THOSE DEPICTED IN PHOTO

# THE STANDARDS

IN 2001, SPRINGFIELD ARMORY® SET OUT TO SHOW CUSTOMERS, THE FIREARM'S INDUSTRY, AND THE REST OF THE WORLD A WHOLE NEW STANDARD IN ERGONOMIC DESIGN AND AVAILABLE FEATURES. WITH THE INTRODUCTION OF THE XD® POLYMER PISTOL, THEY DID JUST THAT.

**STRIKER STATUS INDICATOR** allows the shooter to check by sight or touch to verify the striker is in the cocked position.

**LOADED CHAMBER INDICATOR** allows the shooter to verify visually or by touch, and without a doubt, that there is a round in the chamber.

**ULTRA SAFETY ASSURANCE (USA) TRIGGER SYSTEM™** guards against accidental discharge from dropping or bumping by locking the trigger in place until direct, rearward pressure is applied.

**GRIP SAFETY** on the XD® and XD(M)® allows it to fire only when the shooter has a firm grip on the pistol.

# WHAT IS THE (M) FACTOR™?

IT'S MORE THAN A NEW SET OF FEATURES,  
IT'S ABOUT RAISING YOUR EXPECTATIONS OF WHAT A POLYMER PISTOL SHOULD BE.  
IT'S ABOUT CREATING A NEW STANDARD.  
A PERFECT BLEND OF DESIGN, TECHNOLOGY, INNOVATION AND PERSONALIZATION.  
[WWW.THE-M-FACTOR.COM](http://WWW.THE-M-FACTOR.COM)

## DESIGN

**(M)ODEL CONTOUR FRAME** – The ideal grip angle of the XD® has been carried over to the XD(M)®, but slightly modified contours in the grip will leave you wondering whether you're gripping the gun or it's gripping you.

**(M)AJOR GRASP SLIDE SERRATIONS** – Deeper, longer, and more slide serrations equals a better more penetrating grasp.

**(M)EGA-LOCK TEXTURE** – The "all-terrain" look of the new XD(M)® isn't about cosmetics, it's about function. The angle and depth of each contour in the grip has been calculated for maximized control vertically, horizontally and torsionally.

## TECHNOLOGY

**(M)ATCH-GRADE SELECT FIT BARREL** – Rivaling aerospace manufacturing, the XD(M)<sup>®</sup> match-grade barrel takes precision manufacturing to a whole new level never available within the firearms industry. Now with the XD(M)<sup>®</sup> 5.25 Springfield Armory<sup>®</sup> raises the bar yet again, with each barrel being hand selected to fit each individual pistol that comes off the line.

**(M)INIMAL RESET TRIGGER** – The new XD(M)<sup>®</sup> trigger has shorter travel along with a shorter reset which keeps you on target with greater ease for faster, more accurate follow-up shots.

**(M)ELONITE<sup>®</sup>** – Traditional black oxide finishes are a few millionths of an inch thick and offer no corrosion resistance. The rugged Melonite<sup>®</sup> finish on the XD(M)<sup>®</sup> is a salt bath nitriding process that leaves a thick, corrosion-resistant, hard surface.

## INNOVATIONS

**(M)INIMAL ERROR DISASSEMBLY** – Innovation doesn't always happen by adding to a product. Sometimes, it's what you simplify. By removing the need to pull the trigger during assembly and disassembly, we've made the process easier and faster.

**(M)AXIMUM REACH MAGAZINE RELEASE** – The modified contour of the new XD(M)<sup>®</sup> grip is most evident near the magazine release. Operation of the magazine release is easily accomplished by virtually any size hand without twisting or adjusting from the shooting grip.

**(M)EGA CAPACITY MEGAZINE<sup>™</sup>** – The XD(M)<sup>®</sup> is the largest capacity production polymer pistol in 9mm, accommodating 19 + 1 rounds, respectively, and now available in .40cal (16+1 rounds) & .45ACP (13 + 1 rounds).

## PERSONALIZATION

**ADJUSTABLE REAR SIGHT** – Adjustable sights allow the shooter to regulate his sights to any load combination. For a production pistol this sight has a unique installation, like a custom pistol would. Typically retrofitted adjustable sights fit the standard factory dovetail and thus look less professionally fitted and sit much higher. This pistol has a "low mount" "micro-adjustable" sight unique for a production pistol of this type...In the custom pistol world it would be referred to as a "low mount" or "melted" installation where a custom pocket is machined low into the slide for the sight to sit in, it appears as the sight has "melted" into the slide.

**FIBER OPTIC FRONT SIGHT** – Fiber optic front sights allow for a faster sight acquisition for faster follow up shots.

**LIGHTENING CUT** – The lightning cut in the slide reduces reciprocating mass which allows for faster cycling and allows a larger variety of loads to be used.

**(M)OULD-TRU BACKSTRAPS** – With interchangeable backstraps, Springfield Armory<sup>®</sup> has added another level of comfort. Personalize your grip by choosing one of three backstraps for a more custom fit.

**(M)ULTI-ADJUST RAIL SYSTEM** – A triple-position Picatinny rail readily accepts lights, lasers or other accessories. More importantly, it allows them to be adjusted to the shooter's hand position.

**(M)ULTI-USE CARRYING CASE** – Your total XD(M)<sup>®</sup> experience starts the minute you open your case. In fact, it starts with your case. This rugged case is as durable as the XD(M)<sup>®</sup> it houses and can be re-tasked to protect any number of items from a laptop to two XD(M)<sup>®</sup> pistols.

# AVAILABILITY BY SIZE

\* HIGH-CAPACITY MAGAZINES MAY NOT BE AVAILABLE IN SOME STATES.  
 \* THIS IS NOT AN ALL-INCLUSIVE LIST OF PART NUMBERS. PLEASE ASK YOUR SPRINGFIELD ARMOY<sup>®</sup> REPRESENTATIVE ABOUT MAGAZINE CAPACITY AND SIGHT OPTIONS IN YOUR AREA.
