When I started Shaffer Tactical in 2002 my main goal was to provide the best gear at the lowest prices possible. We have come a long way from the single table at the local gun show but our commitment to our customers has not changed. We strive to provide all of our customers with gear that they can depend on day in and day out.

In 2013 we starting offering handgun instruction. Classes are available for Iowa Permit to Carry, NRA Basic Pistol, and one on one pistol instruction.
