After high school David joined the US Army where he qualified as "Expert" with the Rifle and Pistol. After two years, he crossed over to the US Air Force, where he again qualified as "Expert" with the Rifle and Pistol. While in the service, he instructed other soldiers and airmen the required skills to enable them to qualify with the Rifle and Pistol. During David's time in the service, he worked with the Emergency Response Teams, as well as Combat Search & Rescue in overseas locations.
