

Make Ready! Western Washington Firearms Training

MAKE READY!

Safety focused firearm training.

Washington
United States

Phone: 253-200-5197

"Make Ready!" is a common command at the shooting range. It is the time to safely prepare your handgun, rifle, or shotgun to fire. To a defensive shooter on or off the range this means it is time to be prepared and ready for action. For a beginning shooter on the range for the first time it is an exciting moment of anticipation, the build up to that first shot. Whatever your skill level you always have to "Make Ready!". The Make Ready! mission is to support the shooting community, both novice and veteran, through positive outreach and training. Safety is paramount. There is much to learn from each course and we always have fun.
