I provide an 8 hour class for \$100 which includes firearms and ammunition, eye and ear protection and snacks and bottled water. I want my students to not worry about things they need to bring or extra expenses. Everything you need is provided. Come and learn firearms safety and the legal aspects of carrying a concealed weapon. I conduct classes in the Kearney, MO. area, but can come to where you are if you

have

a group wanting taught. I have been in law enforcement for over 23 years and am an NRA certified law enforcement firearms instructor.
