I am a one man shop focused on providing the highest quality holsters on the market at a reasonable price. I will not sacrifice quality for quantity. Each holster is handmade in the USA. All holsters are made with .080 kydex, which provides the perfect balance between great definition and strength. Current lead time is 2 weeks from the time order is received with payment to date shipped. I back all of my products with a lifetime warranty. Whether you are looking for a concealed carry holster that you will wear all day everyday, gear for on duty as a LEO, range gear or competition gear check out my products. My products are being used by many police officers and firearms instructors around the country. This gear has been tested and abused and it is built to last!
